The Enders quality promise

Enders grants a voluntary manufacturer's guarantee for all barbecues marked with one of the following guarantee symbols for

3
YEAR
GUARANTEE

5
YEAR
GUARANTEE

10
YEAR
GUARANTEE

For the simple reason that you can expect a lot from our quality.

The duration of the warranty, which you can find on the packaging for example, varies depending on the model and supplements your statutory warranty rights. All further information and details of the warranty conditions can be found at www.enders-germany.com or in the operating instructions.

BBQ TECHNOLOGIES

**FASTER,
HOTTER,
SIMPLY DELICIOUS.**

THE ENDERS TURBO GAS BURNER

With the TURBO ZONE™, infrared heat and top professional quality are at your fingertips. With a maximum temperature of up to 400 °C on the grill, top-quality gas grills give the precise cooking results and barbecue flavours that your steak needs.

- 🔥 Freely adjustable and super-fast from the lowest to the highest temperature
- 🔥 Simply turn up the red dial and the TURBO ZONE™ immediately fires up to the maximum
- 🔥 Clearly recognisable by the radiant red of the stainless steel mesh on the flame cover
- 🔥 Top-quality searing at maximum temperature creates delicious grilled meat
- 🔥 The meat stays much juicier and tastier

PLUG & GRILL TURBO ZONE

THE HOTTEST ZONE ON OUR ELECTRIC BARBECUES

- ⚡ TURBO ZONE™ comes on at the touch of a button switch on and turn up to full power
- ⚡ This activates a second heating element on the right
- ⚡ Runs in parallel to the other heating element for that extra touch of power
- ⚡ Hot searing creates delicious barbecue flavour and the meat stays much juicier

**300 °C
IN THE COOKING
CHAMBER**

**400 °C
ON THE GRILL**

**800 °C
TURBO ZONE™**

TURBO CONTROL

TEMPERATURE CONTROL

HEAT RANGE® BRENNERSYSTEM

While years of barbecue experience may have been the secret to a passable barbecue result in the past, now Enders HEAT RANGE™ technology with its professional heat control and distribution features guarantee your barbecue will always be an all-round success. The optimal coordination of all grill components – from the stainless steel burner, through the flame cover, to the grill grate – guarantees the necessary temperature control over the entire temperature range, from low cooking (approx. 80 °C) at a constant temperature to the maximum heat of 400 °C on the grill grate for searing, thereby ensuring the right finish for the perfect steak.

- 🔥 Offers constant temperatures from 80 °C up to 300 °C in the cooking chamber, while temperatures of up to 400 °C are reached directly on the grate
- 🔥 The heating time up to the maximum grill temperature is shortened significantly
- 🔥 Even heat distribution over the entire grill area up to the front zone
- 🔥 Thanks to the new flame covers, flare-ups are minimised
- 🔥 The UNIQ® PRO, UNIQ® KANSAS II PRO and MONROE PRO are equipped with HEAT RANGE

Barbecue with precision
temperature control ranging from
80 °C up to 400 °C.

OPTIMUM CLEANING RESULTS IN NO TIME AT ALL

The patent-pending, innovative solution from Enders for uncomplicated and quick cleaning of the grill – a few simple steps is all it takes:

- The complete cooking chamber and the fat collection drawers have smooth surfaces – with no corners or edges – and can be removed without any tools
- Removable parts are made of stainless steel and are suitable for the dishwasher or are easy to clean by hand
- The irritating work that comes with trying to clean a grill in all its hard-to-reach corners is now a thing of the past
- The UNIQ® PRO, UNIQ®, KANSAS II PRO, MONROE PRO, eFLOW® PRO, eFLAVOUR® and eCRAVE® series are equipped with SIMPLE CLEAN™

THE ROOF IS ON FIRE

The CRUSTER®. Conceived, designed and built to turn the concept of barbecuing on its head. A feature that will now sit comfortably at the top of the food preparation chain and leave everything else in its wake. It's raining fire. And the principle behind this natural spectacle? Anything but half-baked. The CRUSTER® uses the proven technology of the back burner and reaches peak temperatures of up to 800 °C through infrared radiant heat. What makes it unique, however, is its versatility: Disguised as a back burner, the CRUSTER® can be converted into a top heat grill within seconds! **Two Series, Two Possibilities.**

With the **UNIQ® PRO Series**, the height and angle of the CRUSTER® can be customised.

UNIQ® PRO – For those who want maximum flexibility: Here you can freely adjust the height and angle of inclination of the CRUSTER®. This means you're always in the perfect position to perfect any dish – whether it's pizza, steak or crème brûlée.

UNIQ® – The Classic for those who like to keep it practical: The angle of inclination of the CRUSTER® can be adjusted here. The height remains fixed, but the flexibility of the inclination ensures the best results – simple, yet ingenious.

Both series offer you endless possibilities, from crispy pizza dough to the juiciest cuts of meat. The CRUSTER® turns the art of barbecuing on its head.

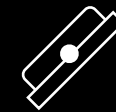

The **UNIQ® Series** offers flexible angles of inclination for even more grilling possibilities.

VERTICAL

The ceramic burner in vertical position is perfect for rotisserie cooking: whether it's gyros, doner kebabs, grilled chicken or a crispy duck – the CRUSTER® always produces an incredibly good crust.

TILTED

Baking is also a walk in the park for the CRUSTER®. In the tilted position, it acts as the perfect source of top heat. If you combine the combustion power of the CRUSTER® with heat from underneath and a pizza stone, it is possible to bake pizzas in less than two minutes, even with the cooking lid open.

HORIZONTAL

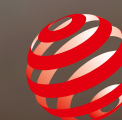

This position is perfect for preparing crispy steaks, pork belly and for general grating, roasting and caramelising. The extremely hot temperatures mean that an excellent crust can be produced in a very short space of time without drying out the food.

UNIQ® PRO

Enders

ONE NAME, UMPTEEN FEATURES, EXTREME INSTEAD OF WELL-BEHAVED.

Uniqueness in series production: the UNIQ® PRO line from Enders. Two models that embody the predicate “top class” like no other BBQ. And it’s the CRUSTER® that is responsible for this. The grill feature for extreme variability that only the UNIQ® PRO series can call its own. Also on board: the Dual side cooker. A sturdy cooking grate made of robust cast iron, which enables preparation in both low and high temperature ranges and, in combination with the optional DELICATER™ OVEN, can also be used to finish off several pieces of meat while leaving the oversized grill area – which measures just under 3,400 square centimetres – free to use. And that’s just the tip of this siz-zling iceberg made of sturdy cast aluminium parts: in addition to the 800 °C TURBO ZONE™, HEAT RANGE™, SWITCH GRID™ and the dishwasher-optimised SIMPLE CLEAN™, a special slider grill grate is also included to conveniently slide food under the CRUSTER®. To ensure that nothing wobbles, tilts or sways, the UNIQ® PRO series has levelling feet in the base cabinet to compensate for unevenness in the floor without any compromises. The UNIQ® PRO line not only redefines the word uniqueness in an unparalleled design that places the greatest emphasis on the smallest components, it also delivers this excellence in series production.

UNIQ® PRO 3 IKO KITCHEN CRUSTER® TOP FEATURES

Two-part warming grate
made of stainless steel

11 kg gas bottle can be
left in the base cabinet
during operation

2 additional base
cabinets with shelves

Double-walled, enamelled
barbecue lid
with integrated thermometer

High-quality cast
aluminium side sections
on the barbecue lid
and cooking chamber

3 stainless steel burners
for powerful direct and
indirect grilling/baking

CRUSTER (6.7 KW): from back burner to
top heat: continuously adjustable in height
and tilt, the ceramic burner delivers infra-
red heat of 800 °C on the barbecue

800 °C TURBO ZONE (4.6 KW) with infra-
red mesh: reaches extra-high temperatures
at turbo speed for hot searing.

HEAT RANGE: constant temperatures for
low and high temperature cooking

SIMPLE CLEAN: easy cleaning as indi-
vidual stainless steel parts of the cooking
chamber can be removed without tools

SWITCH GRID: solid, enamelled cast iron
grate with multiple grilling options

DUAL SIDE COOKER (0.66-5.2 KW): for
preparing side dishes; can also be used as
a storage surface when closed

DELICATER OVEN: offers constant tem-
peratures from 80 °C up to 180 °C in the
oven, ideal for gentle, low-temperature
cooking of several pieces of meat

LEVELLING FUNCTION: can be easily
adjusted inside the base cabinet to compen-
sate for unevenness on the floor surface.

SLIDER GRATE: moving the food in and
out under the CRUSTER® is child's play
thanks to the stainless steel rails with
support tray and grate

VERSATILE POWERHOUSE

Barbecue fans are cheering for the new UNIQ® Series: These two models showcase the perfect combination of performance and comfort, and are hard to resist! The CRUSTER®, with its adjustable tilt position and impressive 800°C infrared top heat, ensures fantastic steaks, crispy pizzas and even fine desserts such as crème brûlée – pretty hot, isn't it? The incredible power of the TURBO ZONE™ with its infrared mesh reaches extreme temperatures in record time. Perfect for searing and creating those irresistible grill stripes! The enamelled SWITCH GRID™ cast iron is everything you could possibly want in a grill, and cleaning is a breeze with SIMPLE CLEAN™! To keep everything hygienic and clean, a GN 1/2 container is waiting on the side table to keep your food fresh until it is ready to go on the grill. And on top of that? A durable bamboo cutting board is the perfect hygienic preparation surface for your barbecue – not only is it convenient, but it will also give you the feeling of a grill master in their element.

KANSAS II PRO

WELCOME TO THE CHAMPIONS LEAGUE!

With the KANSAS II PRO, you will triumph at every BBQ: the winner grills it all. The HEAT RANGE™ stainless steel burner architecture ensures optimum heat distribution right to the edges. In the cooking chamber, it impresses with a temperature range from a constant 80 °C to a roaring hot 400 °C on the grill. The cast aluminium side panels on the barbecue lid ensure enormous stability and durability. And because the best is never good enough for champions, the KANSAS II PRO comes up trumps with additional champion features: the SWITCH GRID™ grate standard and the Enders TURBO ZONE™ offer you the perfect scope for your culinary creations. And when the fireworks are over, you can clean your barbecue easily, quickly and simply with the practical SIMPLE CLEAN™ system.

MONROE PRO

OPEN FOR ALL BARBECUE ADVENTURES

The BBQs from the MONROE PRO series are real all-rounders. Those who like to push the envelope when it comes to barbecuing are likely to really test the boundaries with these fully featured superheroes. Everything about the gas barbecues has been thought out and optimised down to the smallest detail: Not only are the cooking hood side panels dimensionally stable and durable, made from solid cast aluminium, but they also boast robust combustion chambers made from cast aluminium and stainless steel or enamelled steel, depending on the model. With the TURBO ZONE™ you can effortlessly master the supreme discipline of “grilling a steak to perfection”, while the HEAT RANGE™ stainless steel burner system allows you to set any temperature you want, from low and slow to fast and hot. And that's not all! The amazing range of accessories, including those for the SWITCH GRID™ grid, will meet all your needs. And thanks to SIMPLE CLEAN™, you can also wipe the barbecue down in no time at all. Another special feature: the SHADOW Series has a high-quality coating in the stunning colour matt graphite. This eye-catching shade has already captivated the kitchen world and is now setting the bar high in the barbecue world.

HYDE®

GRILLING WITHOUT LIMITS: THE ALL-ROUND EQUIPMENT

The new HYDE® Series has everything you need for your next barbecue party: From the compact HYDE® 3 for cosy balcony evenings to the HYDE® 6 for large barbecues with family and friends. These barbecues bring equipment and power to any garden! Sear your food in no time with the 800°C TURBO ZONE™ and infrared mesh. The infrared back burner will ensure juicy, crispy food on the spit every time. The SWITCH GRID™ cast iron grid and the practical side burner give you the freedom to grill anything you want. You always have a perfect view of your food through the viewing window. The HYDE® 6 also features a spacious base unit with drawers for accessories. The HYDE® Series – for those who don't want to compromise when it comes to barbecuing and are looking for a complete range of equipment.

CHICAGO NEXT

GRILLROUNDER

One for all. All in one. BBQs in the CHICAGO NEXT series are "grillrounders" – packed with features to keep you entertained. Both the 3 R TURBO and 4 R TURBO feature an enamelled cast-iron grate with the TURBO ZONE™ underneath, allowing you to reach maximum cooking temperatures at turbo speed. To lower the temperature a little, on the other hand, there is a warming grade made of stainless steel. The 3 R Turbo und 4 R Turbo are finished off by the SWITCH GRID™ system, which allows you to use a sear grate, pizza stone, pan, poultry roaster or Dutch oven, and by two folding side shelves.

TOO GREAT TO BE SMALL.

The SAN DIEGO series BBQs are real BBQ marvels. They offer spacious preparation and storage areas, but take up very little space. Perfect for small terraces, mini balconies or hot dates. Their sturdy frames come with a large shelf for plates and food and two additional shelves on the sides to store spices and sauces. A stainless steel warming grate opens and closes with the lid. And as it is made of durable stainless steel, it's easy to clean when you're done cooking up a storm. And speaking of clean: the spotless matt-black design of the stainless steel burner gas grill blends smoothly into any environment.

TURN YOUR BALCONY INTO A CULINARY HOTSPOT

Experience deluxe balcony grilling with the new URBAN II PRO and enjoy a barbecue with a view. As the next evolution of the popular URBAN series, the URBAN II PRO takes grilling to the next level with fresh ideas and inspiration from the user community. This table grill delivers maximum performance in minimal space, making it perfect for balconies or spontaneous grilling adventures on the go. With two adjustable stainless-steel burners, you can master both direct and indirect grilling with ease – even cooking becomes a breeze. Turn your balcony into a complete outdoor kitchen, where you can grill, cook, and bake to your heart's content. The enamelled cast-iron grate gives you the choice between sharp grill marks or a flat pan for juicy frying. Durable yet lightweight, the aluminum cast cooking chamber and lid ensures the URBAN II PRO is both robust and portable. Its sturdy, removable side tables provide extra space for your culinary creations. Looking for even more convenience? Pair it with the optional trolley for added height, storage, and even more grilling fun! The URBAN II PRO will ignite your balcony and elevate your grilling game to the next level!

CHECK IT OUT, THE BARBECUE THAT GETS IT RIGHT EVERYTIME!

With the BBQs of the URBAN series, you'll be sure to have several irons in the fire. Whether grilling, cooking or baking, you will always be able to satisfy your hunger – the URBAN, a true master in its class. In addition to high-performance grilling, the all-rounder also comes up trumps with its appealing design and intelligent technology. What can't it do? Working with gas bottles or screw-in cartridges is certainly not one of its weaknesses. In other words: you can fire up any party with the tabletop version of the URBAN! No matter whether the action's happening on the balcony or in the park at the other end of the city. And with the URBAN series trolley, you can really get the barbecue going, as the mobile gas barbecue can be moved conveniently and safely on its mobile base. The practical side shelves will also give you the space you need.

AMARO™

THE NEW RANGE OF BARBECUE FUN

With the AMARO™ plancha grill, you can rediscover the art of grilling: and not on a traditional barbecue grate, but rather on a huge stainless steel plancha! The shape of the three infinitely variable P-shaped stainless steel burners transfers heat directly to the plancha, bringing it up to temperature quickly – for real stir-fry! The removable lid is the perfect solution for protecting your plancha from wind and weather between barbecue sessions. Best of all, it can be easily removed without tools – flat matt finish! With the fold-down side shelves and handy hooks, you can hang baskets for spices or grill accessories and have everything you need right at your fingertips. The generous storage compartment in the front area is the perfect place to stash all your essentials, whether it's large bottles or your favourite sauces. With all of its practical functions, the AMARO™ is the new way of grilling. For everyone who wants even more.

TOP FEATURES

Removable fat tray for easy cleaning

Removable cooking lid

11 kg gas bottle can remain in the base unit during use

Fold-down side shelves for space-saving storage of the plancha grill

3 P-SHAPED STAINLESS STEEL BURNERS (3,2 KW) that guarantee even heat distribution

GENEROUS GRILLING AREA: The stainless steel plancha with side handles offers a surface area of 3,140 cm², perfect for preparing different foods at the same time

2 FOLD-DOWN SIDE SHELVES for space-saving storage

2 REMOVABLE BASKETS for storing spices or plancha cutlery

2 HOOKS on each of the fold-down side shelves to hang barbecue utensils within easy reach

PRACTICAL STORAGE COMPARTMENT offers storage space for larger bottles and barbecue accessories

PACO®

Enders®

PACO BELLO

The PACO® pizza oven series is the ultimate way to conjure up picobello Neapolitan-style pizzas. Thanks to a continuously adjustable stainless steel burner, you can set the heat in the PACO® precisely and keep it all in with the cast aluminium plate and a double-walled, insulated housing. You can check the temperature on the thermometer integrated into the side. And just in case, there is an ignition failsafe built in which interrupts the gas supply if the flame goes out. Another convenient feature: the folding leg design makes transport extremely easy. A further highlight of the series: the SELF ROTATING PIZZA™ function means that the pizza stone turns evenly and your Margheritas, Marinaras and other pizzas are guaranteed to be a success on the PACO® ROTATE.

eFLOW® PRO

Enders

FULL ELECTRICAL POWER.

Full power: the eFLOW® PRO 2 TURBO. Equipped to the max with innovative features, this one doesn't do things by halves, but gives you full charge straight away. From TURBO ZONE™ to SWITCH GRID™ – everything is there to make your BBQ heart beat faster (and hotter). Speaking of which: the two heating elements are infinitely adjustable with the help of LED-illuminated controls and allow you to barbecue and bake both directly and indirectly. Whatever you have in mind – with almost 2,000 cm² of grill area, you have more than enough space for it. And that's just on the top, because the base cabinet offers further storage space and an additional shelf. This amazing barbecue is simply a work of art: cast aluminium elements, such as parts of the barbecue lid and the cooking chamber, not only give the eFLOW® a fascinating appearance, but also ensure complete stability. And by the way, the power pack is available in both stainless steel and our matt graphite out of the SHADOW series. The only question: what more could you want?

FLAVOUR FUSION

An electric barbecue that suits your tastes. The eFLAVOUR® is the epitome of the fusion of power, technology and design. With a total output of 3 kW distributed over the two heating zones or focused only on the right side of the grill, there is sufficient electric power for a wide variety of BBQ dishes. Along with the TURBO ZONE™, SWITCH GRID™ and SIMPLE CLEAN™ are also on board to give your grilling experience even more options and convenience. Thanks to a grate surface area of almost 2,000 cm², enclosed by a double-walled lid, there is plenty of space to keep all your party guests satisfied. Moreover, the eFLAVOUR® has an exclusive design feature: instead of a door in the bottom cabinet, it has holders on the front legs that accommodate an attractively shaped serving tray. There it hides the shelves from views. Used to serve up the grilled food when it's ready, it really comes into its own and brings just the right flavour to the table – with real flair!

eCRAVE®

A REAL ALTERNATIV-E

The eCRAVE® 2 is the BBQ solution for those who want an extremely compact electric grill but are not prepared to compromise on the grilling experience. A genuine alternativ-E, which allows powerful direct and indirect grilling thanks to two separately adjustable heating elements. Combined with the enamelled grill grate, the eCRAVE® 2 leaves a unique branding on the food. But one thing that always disappears: dirt. With SIMPLE CLEAN™, cleaning even stubborn dirt is a cinch. Fold-down side shelves and plenty of storage space in the base cabinet also make the smart electric BBQ a space-saving miracle which will fit in almost anywhere.

AURORA®

Enders

SO MUCH MORE THAN MEETS THE EYE.

The AURORA® has a lot to offer. There's no smoke and mirrors involved here. While other charcoal table barbecues produce smoke like old locomotives, this BBQ sizzles away in clean, unobtrusive style. Its emission-free profile is based on the battery-powered and extremely quiet E-FAN BBQ fan technology. It not only ignites the easy-to-fill charcoal compartment underneath the enamelled preparation surface, but also fires our passion for barbecuing the original way.

THERMO- METER

FULL TEMPERATURE CONTROL

The CELSIO II **Bluetooth®** Thermometer wirelessly and accurately monitors the temperatures on your barbecue with its two stainless steel probes: one for the current core temperature of the food and the other for the ambient temperature. You can keep an eye on these either directly on the Always-On LCD display or conveniently in the Enders app. And that's not all: You can select your desired target core temperature, which is also displayed, directly from the cooking level library in the app. This contains the recommended temperatures for the different cooking levels for numerous types of meat and fish. The app also saves the information from your previous barbecue sessions so that you can track historical temperature curves at any time and organise your next barbecue experience even more precisely. This way, you'll always have the perfect grilling conditions!

CELSIO II BLUETOOTH® THERMOMETER

NEW

ART. NO. 8805

- **Bluetooth®** Thermometer with Always-On LCD-Display
- Organised grilling surface without cable clutter thanks to two cordless stainless steel sensors
- App, which includes a cooking level library, timer and history
- Prepare food to the desired level of cooking by monitoring the target core temperature selected in the app
- Temperature alerts can be selected via app, and triggered few degrees before the selected target core temperature is reached
- The range between the stainless steel sensors and the thermometer is up to 90m, and between the thermometer and the app (mobile device) up to 80m
- Integrated, high-performance battery

UNDERCOVER PIZZERIA

The PIZZA COVER TURBO is the perfect addition to your HYDE or MONROE PRO with back burner. With its double-walled stainless steel design and a full-size, rectangular pizza stone, you will get that real pizzeria feeling on your plate. Another highlight and also a complete innovation is the large viewing window on the top of the cover that offers a convenient option for monitoring the turbo baking process.

PIZZA COVER TURBO

ART. NO 7881

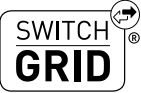

- Equipped with a viewing window
- Made of stainless steel
- With integrated thermometer
- Including large pizza stone (38 x 30 cm)
- Suitable for MONROE PRO and HYDE with back burner

The PIZZA COVER TURBO captures the ultra high heat of the infrared back burner and conducts it cleverly over the cover to generate the perfect heat from above. The additional heat from the main burners provides the ideal heat distribution under the PIZZA COVER TURBO – the secret to a fast, perfectly baked pizza experience.

SWITCH GRID™

AN INSERT FOR EVERY USE

DUTCH OVEN

ART. NO. 7795

- For preparing braised dishes, stews, ribs or even for baking bread
- Special lid structure for even condensation distribution and succulent food
- Insertable stainless steel rib rack
- Additional opening on the lid enables temperature measurement with the lid closed
- Capacity: 5.5 L / weight: 8 kg

SEAR GRATE

ART. NO. 7791

- For quick and intense searing
- Creates unique branding on the grilled food
- Solid, enamelled cast iron

PIZZA STONE

ART. NO. 7790

- For easy preparation of crispy pizzas and sweet pastries
- Ceramic pizza stone (Ø 31.5 cm)
- Enamelled cast iron holder

PAN

ART. NO. 7792

- For sautéing potatoes or roasting vegetables
- Extra-high rim (4 cm) for easy turning of the grilled food in the pan
- Solid, enamelled cast iron

POULTRY ROASTER

ART. NO. 7793

- For even cooking of poultry and vegetables
- Stainless steel body with robust enamelled cast iron handles
- Poultry holder can be screwed off and on for easy cleaning

WOK 'N' BROIL

With the SWITCH GRID™ WOK, you'll rock every barbecue evening from now on. When used correctly, the unique wok aroma is released as you create dishes that will blow your mind. The solid enamelled cast iron of the SWITCH GRID WOK always ensures optimum heat distribution. The extremely practical base allows you to use it directly on the grill or other suitable heat sources.

WOK

ART. NO. 7797

- For the unique wok taste sensation on your Enders gas barbecue
- Made of solid, enamelled cast iron for effective heat distribution
- The practical base enables use directly on the grill grate and other suitable heat sources
- Two side handles for easy and convenient handling
- Suitable for all Switch Grid grates from Enders (except eFLOW PRO and eFLAVOUR series)
- W 38 x L 35 x H 10 cm / Weight: 4.5 kg

ADAPTABLE? SWITCH, PLEASE!

Turn your barbecue into a true all-purpose weapon – meatball-proof. Whether it's hearty braised dishes with the **Dutch Oven**, intense searing with the **Sear Grate**, hot baking sessions on the **Pizza Stone**, crispy meat fun thanks to the **Poultry Roaster**, fast and healthy cooking from the **Wok** or delicious side dishes in the **Pan** – thanks to the **SWITCH GRID™** you are well-prepared for any and all eventualities. Quick and easy to replace, you can equip the enamelled cast iron grill and removable round element to suit your needs. A full range of barbecue options.

ROTISSERIES

A PROFESSIONAL PLAYER

Turning heads around the world: the BARBECUE ROTISSERIE PRO made of stainless steel. Thanks to its clever universal holder made of cast aluminium, it is guaranteed to run smoothly. The rotisserie is attached to your barbecue in no time and without the use of tools. Its dual motor runs either on batteries or on electricity from the socket. The BARBECUE ROTISSERIE PRO also impresses with its easy handling and space-saving storage. A professional rotisserie solution and a real all-rounder to boot.

ROTISSERIE PRO

Art. no. 7908

- Universal barbecue rotisserie made of stainless steel with cast aluminium holders
- Quick and easy attachment of the cast aluminium adapters without the need for tools
- Quiet electric motor can be powered by batteries or mains electricity
- Made of durable materials for a load-bearing capacity of approx. 10 kg

MODULAR TROLLEY

ROLL YOUR STORAGE SPACE TO WHERE IT'S NEEDED.

Our modular trolley makes storage dreams come true. The rolling space-saving miracle provides you with additional storage options. With two strong magnets, you can attach the versatile mobile container to your BBQ. Whether on the left or right, it's entirely up to you. And the four flexible castors mean that you can move it around in the most convenient way possible.. And by the way: maximum convenience also awaits you when it comes to tidiness. Thanks to the unit's subdivision with an additional shelf, you will be able to find things more quickly.

SUITABLE SERIES

Today it may rain, hail or snow ... but who cares? It's not the end of the story for your barbecue. Our PREMIUM weather protection covers shield your barbecue buddy from all the elements. Heavy rain, sunlight, blizzards and dirt are no longer a worry. The lightweight fabric made of UV-resistant special fibre is extremely tear-resistant and colourfast. And thanks to the breathable PU coating, it is also really smart: waterproof on the outside and permeable to water vapour on the inside, thereby completely excluding the formation of condensation. Because of these solid features and the ease of handling, you will always be able to cover your barbecue with the PREMIUM weather protection cover quickly!

GRILL MAGS®

MAGNETIC HOLDERS FOR BARBECUE ACCESSORIES

BOTTLE HOLDER

ART. NO. 7714

- For bottles up to Ø 8.5 cm
- Removable bottle opener

ART. NO. 7818

- Two strong magnets ensure a secure hold
- Robust steel frame with black paint finish
- External dimensions: W 22.5 x D 10.5 x H 5 cm
- Internal dimensions: W 20.5 x D 7.5 x H 5 cm

CHOPPING BOARD

ART. NO. 7824

- No slipping due to a strong magnet
- Removable drip tray (750 ml)
- Deep drainage channels for clean drainage into the collection tray
- Dishwasher safe
- Material: food-grade polypropylene (PP)
- Dimensions: W 30 x D 6.5 x H 46.5 cm

ECO-BURNER TECHNOLOGY

Finally, you're sitting together with your friends again. Of course, you are out in the fresh air on the patio or the balcony and, of course, in the best of moods. Who wants to let the weather throw a spanner in the works and sacrifice a beautiful evening to a low-pressure zone or a cold front? Time for the ECO patio heaters from Enders. Why Enders? Easy! Because patio heaters from Enders get more radiant heat out of every kilowatt with intelligent technology. And because Enders delivers the heat where you want it.

EFFICIENCY IN EVERY WAY

But Enders would not be the global pioneer in the development of efficient patio heaters if we left it at that: for example, we have succeeded in reducing gas consumption by up to 83% compared to a conventional 12 kW burner while generating the same amount of heat.

That means for you: 83% lower emissions, 83% lower costs and 83% more enjoyment of the outdoors.

But see for yourself what's in it for you with our innovative technology solutions!

83% SAVINGS
in CO₂ emissions and costs*

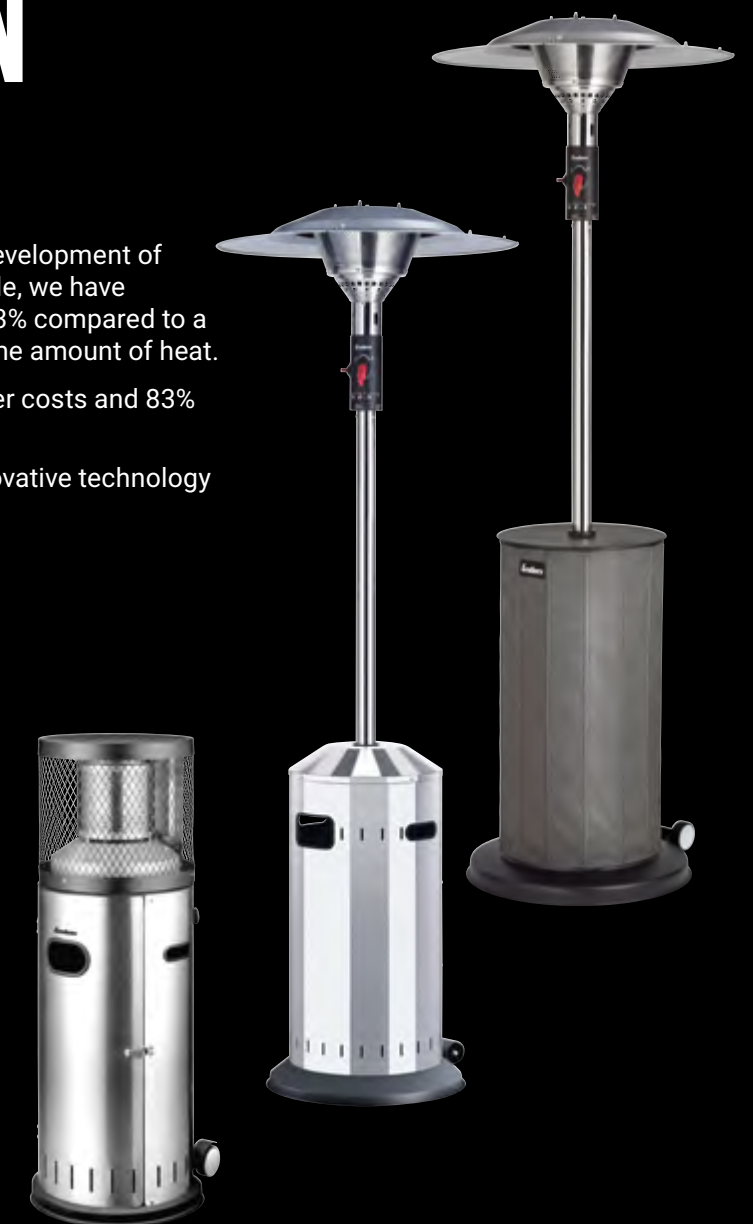

50% SAVINGS
in CO₂ emissions and costs*

30% SAVINGS
in CO₂ emissions and costs*

*compared to conventional 12 kW standard burners

The Enders NOVA® LED fireplaces also feature ECO GREEN technology in addition to a stunning design. The NOVA® LED M with a burning time of 111 hours (8 kg gas bottle) and the NOVA® LED L with 152 hours (11 kg gas bottle) also prove to be real efficiency stars.

NOVA® LED

Enders

MRS. NOVA, NOVA.

Ambience: romantic, flame: fantastic, effect: dramatic – with NOVA® we have captured fire in an entirely new way and created something wonderful for your patio. The slim housings surrounding the fireplaces come in black, grey and taupe, together with colour-coordinated glass cylinders and reflectors. The dancing fire in the centre is accompanied by a round, red LED light, while an indirect light shimmers around the base of the column in a high-quality finish. With its modern and aesthetic design, NOVA® is truly a stunner to behold. And so compact that it can be set up anywhere.

PREMIUM weather protection cover	5678

* 5500623: hose Ø 8 mm (IS, NL, BE, LU, CZ, SL, SI, HR, RO, IT, GR, GB, SE, IE, CY, FR)

PREMIUM weather protection covers from Enders provide lasting protection against all the outdoor elements such as rain, sun, snow and dirt. The fabric – made of a UV-resistant special fibre – is permanently tear-resistant and colourfast. The breathable PU coating is not only waterproof but also permeable for water vapour to avoid the formation of condensation.

Enders PREMIUM weather protection covers are lightweight, odourless and impress with their easy handling and well-thought-out details, such as wind-proof fitting with magnets integrated into the hem.

ELECTRIC PATIO HEATERS

ELECTRIC HEATERS.

Loom, Moow, Oron and Oxeo. Fantastic names that truly redefine the status quo under a starlit sky: electric patio heaters from Enders. A perfectly coordinated family of models in terms of their design and range of functions, consisting of freestanding, suspended and wall-mounted heaters that complement each other ideally, but also deliver outstanding performance independently of one another. Framed in a modern design, these electric patio heaters stand out above all because of their versatility. Intensity, tilt, height or alignment: the four heaters can be configured individually and thus always guarantee the best possible heat radiation. Thanks to Plug & Heat and wind-resistant infrared technology, this is available almost instantly. Simply heavenly.

EXPLORER NEXT

EVERYWHERE. WHEREVER YOU BARBECUE.

To make sure you don't end up missing your BBQ too badly or wind up feeling hungry for a succulent barbecue feast when you're on the road: the EXPLORER NEXT PRO is at your side. This barbecue is a spirited adventurer that scores top marks with its compact design and heaps of useful features: extremely sturdy leg construction, a stainless steel grate, cast aluminium barbecue lid and a useful storage surface. With the EXPLORER NEXT PRO, you're guaranteed more fun when camping or on your trip to the lake. And in addition to its mobility, this "Bear Grylls" of the BBQ world also knows how to deliver a top performance in terms of flexibility: The grill grates that sit above the practical gas cookers can be removed individually – making sure that sausages and omelettes don't get in each other's way. Good to know: all EXPLORER NEXT models are also available as a caravan version. They can be connected directly to your caravan or motorhome – leaving all the more time for you to explore.

KITCHEN COMFORT MEETS FREEDOM

The new RYDA Series offers excellent performance for camping enthusiasts. With two powerful burners that can be adjusted however you like, an ignition failsafe and piezo ignition, you are always ready for great outdoor cooking. The two optional grill plates allow you to prepare a variety of dishes – from succulent steaks to perfectly grilled veggies. The robust stainless steel housing and sturdy pan supports ensure maximum durability. The ingenious hose holder and practical fastener make transport a breeze. With overflow and wind protection, RYDA stoves are the ideal choice for any outdoor adventure.

CANBERRA

OUTBACK CUISINE

The CANBERRA camping stove impresses with its powerful, adjustable burners which will allow you to enjoy an impressive culinary experience even in the deepest outback. The very sturdy, chrome-plated pan grate ensures safe cooking with very easy handling. The CANBERRA is not only compact and therefore easy to transport, but is also easy to clean thanks to its smooth surfaces. Plastic corners on the cover protect the powder-coated steel housing, while rubber feet make it extremely stable.

MOBILE TOILETS

THAT “AT HOME” FEELING WHEN TRAVELLING

Most people who like to travel share the unspoken wish that they would prefer their home toilet to any other. Camping toilets from Enders are built in such a way that you can now take that feeling of comfort with you wherever you go. A comfortable seat height corresponds to the height of the fixed toilets that you're familiar with at home. The smooth surface is just as easy to keep clean as it is to handle, and all without tools: the toilet lid and seat are easy to remove and the extra-large flushing water tank can be re-filled quickly. It's going to be a good trip!

SUPREME

ART. NO 4999

- Comfortable seat height of 44 cm – just like at home
- Integrated toilet paper holder
- Toilet lid and seat can be removed without tools for easy cleaning and quick, uncomplicated filling of the flush water tank
- Piston pump flushing
- Quick separation of flush and wastewater tank
- 1 ergonomic carrying handle each for flush and wastewater tank
- Transport roller for easy transport when the tank is full
- Fill level indicator for the wastewater tank
- Swivelling pipe for hassle-free emptying of the wastewater tank
- With ventilation button
- Very smooth and hygienic surface

WC HYGIENE

QUINTISSENTIAL WC HYGIENE.

The microbiological sanitation additives **ENSAN BLUE+** and **ENSAN RINSE+** effectively clean your mobile toilet system ecologically and sustainably. Our environmentally friendly and high-performance alternatives to conventional additives make use of natural recycling and are well-thought-out: microorganisms reliably rid your camping toilet of unpleasant odours, keep it clean and efficiently decompose faeces and toilet paper. In addition, our additives are biodegradable, non-hazardous and compatible with sewage treatment plants – that's why **ENSAN BLUE+** has been awarded the **Blauer Engel Environmental Label**. What's more, **ENSAN BLUE+** is twice as efficient as conventional additives for wastewater tanks.

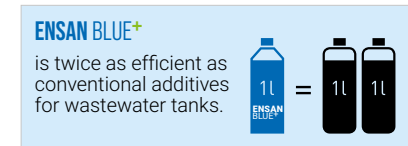

PRODUCT OVERVIEW

MICROBIOLOGICAL SANITARY ADDITIVES

ENSAN BLUE+ 1L/2,5 L ART. NO. 497698/497798 FOR THE WASTE WATER TANK

- Powerful with microorganisms
- Awarded the BLAUER ENGEL Environmental Label
- Easily bio-degradable
- Non-hazardous and compatible with sewage treatment plants
- Facilitates the breakdown of organic waste and the decomposition of toilet paper
- Keeps the wastewater tank hygienically clean
- Gives the air a pleasant aroma
- For approx. 200 L of wastewater per 1 L sanitary liquid
- For approx. 500 L of waste per 2.5 L sanitary liquid

www.blauer-engel.de/uz84a

ENSAN RINSE+ 1L ART. NO. 497898 FOR THE RINSING WATER TANK

- Powerful with microorganisms
- Easily bio-degradable
- Non-hazardous and compatible with sewage treatment plants
- Cleans the bowl and slide valve when flushing
- Removes plaque, prevents limescale build-up and keeps the toilet hygienically clean
- Flushing water stays clean and fresh at temperatures up to 40 °C
- Gives the air a pleasant aroma
- For approx. 200 L of flushing water per 1 L sanitary liquid

PRODUCT OVERVIEW

CONVENTIONAL SANITARY ADDITIVES

ENSAN BLUE 2,5L/5 L ART. NO. 501798/501898 FOR THE WASTEWATER TANK

- Facilitates the breakdown of organic waste and the decomposition of toilet paper
- Prevents unpleasant odours and reduces the formation of gas
- For approx. 250 L waste water per 2.5 L sanitary liquid
- For approx. 500 L of waste water per 5 L sanitary liquid

ENSAN GREEN 1L ART. NO. 498098 FOR THE WASTEWATER TANK

- Facilitates the breakdown of organic waste and the decomposition of toilet paper
- Prevents the formation of unpleasant odours
- For approx. 130 L of waste water per 1 L sanitary liquid

SANITARY SET 1L EACH ART. NO. 49808098 FOR THE FLUSHING WATER AND WASTEWATER TANK

- Sanitary concentrate set for the flushing water and wastewater tanks
- Set consists of: Ensan Green 1 L for the wastewater tank Ensan Rinse 1 L for the flushing water tank

ENSAN RINSE 1L ART. NO. 498498 FOR THE FLUSH WATER TANK

- Cleans the bowl and slide valve with every flush
- Removes water scale, prevents limescale build-up and ensures the smooth functioning of the stop valve
- Protects all rubber seals and keeps the toilet hygienically clean
- Pleasant and long-lasting citrus scent
- For approx. 150 L of flushing water per 1 L sanitary liquid

ENSAN WHITE ART. NO. 5005 SOFT TOILET PAPER

- Special easily soluble toilet paper
- 4 rolls per bag, 2-ply
- Extremely soft and strong
- 250 sheets per roll
- 9 x 11.5 cm

VANCOUVER

Clear the ring for the champions of transport and storage solutions: The VANCOUVER industrial box plays in the premier league! Robust, durable and ready to master any challenge. With an impressive load and stacking capacity, the aluminium box shows its true strength. Equipped with hard facts: Die-cast stacking corners and edge, floor and ceiling profiles made of solid profile guarantee extreme stability, even under the toughest conditions. Whether in elegant silver or stylish grey - the VANCOUVER aluminium box never gives up. It takes everything in its stride and offers the perfect storage space for every project in three different sizes. A real heavyweight champion in terms of quality and flexibility!

PRODUCT OVERVIEW

The aluminium boxes are available in **silver** and **grey** and in different sizes

TOP FEATURES

STAINLESS STEEL HINGES AND PLASTIC-COATED SPRING-LOADED HANDLES for convenient transport

CIRCUMFERENTIAL RUBBER PROFILE ensures dust and splash water protection

STURDY INDUSTRIAL PRO-BOX made of 1 mm thick aluminium

FEATURES

ROBUST STACKING CORNERS made of cast aluminium

HIGH STABILITY thanks to full profiles on lid, edge and base

2 STURDY LID STRAPS hold the lid in position

TORONTO

The TORONTO aluminium box scores with its impressive size and outstanding quality. No matter what you want to transport – this box is always ready. The new facet: Five shades of grey – With the grey edition in five different sizes, it offers space for all the stories that life writes. Thanks to its sturdy design and unbreakable plastic handles, the box is easy to transport. You can lock it securely with the optional locks or send it on its way with transport castors. TORONTO combines elegance and functionality – because the world is not black and white, but full of shades of grey. Choose the box that not only focuses on function, but is also fashionably ahead – in silver or grey.

PRODUCT OVERVIEW

The aluminium boxes are available in **silver** and **grey** and in different sizes

TOP FEATURES

EXTREMELY STABLE FRAME CONSTRUCTION
for particularly high dimensional stability

FOAM RUBBER SEAL IN THE LID protects against dust and splash water

2 LATERAL SAFETY GRIPS for ergonomic handling and good resilience

XL

SELF-RETAINING LID

FRONT HANDLE made of plastic, additional use as carry handle

STACKABLE thanks to the boundaries in the lid frame and stackable inside each other for space-saving storage

SEALABLE lever clamp locks

SETS

ACCESSORIES

4 swivel castors with brakes

LEGEND

ABBREVIATION	EXPLANATION		
I	with infrared back burner	S	with viewing window
IK	with infrared back burner and side cooker	SIK	with viewing window, infrared back burner and side cooker
K	with side cooker	O	with Delicater™ oven
KR	with side cooker und SWITCH GRID™ grate	Z	with ignition safety device
R	with SWITCH GRID™ grate	GP	Griddle/grill plates

	CRUSTER® From back burner to top heat: continuously adjustable in height and tilt (with UNIQ only in the tilt angle), the ceramic burner delivers infrared heat of 800 °C on the barbecue
	TURBO ZONE™ Your grilling zone for intense searing at maximum temperature on gas and electric grills.
	HEAT RANGE™ Precise grilling with temperature control from 80 °C up to 400 °C.
	SWITCH GRID™ With the clever grill grate system, you simply switch to the right insert for each dish.
	SIMPLE CLEAN™ Simply remove the individual parts of the cooking chamber of your barbecue without tools and conveniently put them in the dishwasher.
	ECO ULTRA burner technology 83% saving of CO ₂ emissions and costs compared to a standard 12 kW burner.
	ECO GREEN burner technology 50% saving of CO ₂ emissions and costs compared to a 12 kW standard burner.
	ECO PLUS burner technology 30% saving of CO ₂ emissions and costs compared to a 12 kW standard burner.
	ENDUR reflection system Heat is radiated across a large area and with maximum efficiency.
	The German Association of the Gas and Water Industry (DVGW) is an independent and neutral industry certifier rooted in the European internal market. The safety, hygiene and environmental compatibility of a product is at the centre of every test. Tests are based on the DVGW rules and regulations, on nationally and internationally recognised guidelines, standards and certification programmes.
	GS marking The GS seal certifies that a ready-to-use product meets the requirements of the Product Safety Act (ProdSG).
	The CE mark confirms that the product to which it is affixed meets the requirements of all EC directives applicable to it.

We reserve the right to make minor deviations from the text and illustrations in this catalogue for reasons of technical progress. The product weights listed here are approximate. On publication of this catalogue, all older catalogue versions become invalid.
