THE TASTE OF FUN

CATALOG 2023

Barbecue, the Belgian barbecue specialist, has had only one mission since its foundation in 1985:

# Using innovation to make barbecuing more fun, easier and simpler.

Today, Barbecue not only offers various barbecue models, ranging from charcoal and gas to smokers and fire pits, but also a wide range of accessories: from protective gloves to barbecue tools, smoke chips and lighting products.

Barbecue is an ode to the beautiful things in life, to being together, to long and enjoyable dinners, and especially to the enormous diversity of irresistible barbecue preparations. Whether in winter or summer, in the city or in the country, with friends, family or as a couple, Barbecue is the Belgian barbecue brand that brings people together. Barbecue, the taste of fun!

Follow us on social media or take a look at our new website:

## In order to serve our customers even better,

we recently launched a completely new B2B website, [www.livwise.shop](http://www.livwise.shop). This new website makes it even easier to place orders. Moreover, in addition to our extensive range of products, it is also possible to order spare parts.

Looking for pictures, videos or manuals? They can all be downloaded via our website.

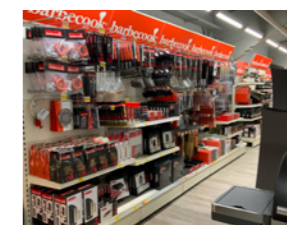

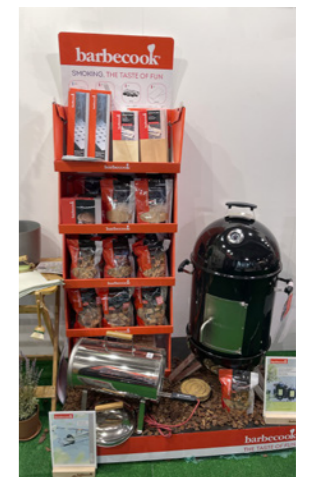

Create an account and enjoy the numerous advantages!

## Barbecue in your shop!

With our extensive range of POS material, you can put the Barbecue collection in the spotlight in your shop. Banners, columns, folders, displays... we have it all. Contact your representative to put together the ideal POS package for your store.

## Get inspired!

At [www.barbecue.com](http://www.barbecue.com) everybody can easily find extra information about our products. Those who buy a barbecue in your shop can register it here and find their replacement parts quickly and easily. We also offer a lot of extra barbecue tips & tricks and recipes.

# KAMAL

Grilling, smoking, steaming, roasting... you can do it all with the kamado! The ceramic bowl and lid based on mullite allow you to keep the temperature more stable and the coals stay hot for a longer time. This makes it ideal to try slow-cooked ribs or pulled pork and enjoy the ultimate barbecue flavour.

In addition, this kamado has a lid with a 100% airtight seal and four solid springs, so that the smoke and the flavours stay inside. With the handy air supply, you can easily regulate the temperature yourself and remain master of the fire.

Ceramic based on mullite: wear-resistant and strong material, little heat conduction.

Air vent in cast aluminium.

Heat shield for indirect grilling.

Extra good closure due to flexible and durable seal.

High quality charcoal basket and ash container in stainless steel.

# CARLO

Enjoy the great outdoors with friends and barbecue wherever you like: in the park, at the beach or even just on your balcony. Since Carlo is very compact, you can take him everywhere with you in his handy carrying bag.

Carlo remains "cool" on the outside, and gets really hot on the inside. Thanks to its unique design, you can grill without smoke and the ventilator allows you maximum control.

Carrying bag included.

Easy to use as a table barbecue.

Grill with raised edge.

Ventilator for constant and adjustable flame (excl 4 x AA batteries).

All components are dishwasher safe (except bowl with ventilator).

## HOW TO USE YOUR JOYA?

# DYNAMIC CORE

The gas barbecues Siesta and Stella and the charcoal barbecue Magnus feature a Dynamic Core: the barbecue's central and hottest space, designed in such a way that it allows you to easily remove from the grill. This means you can push your limits and that of your barbecue by replacing the grill with accessories such as a pizza stone, a griddle or the Dynamic Core grill. These will give you even more possibilities and you will grow into a genuine Barbecue virtuoso!

BC-ACC-7126

BC-ACC-7127

Add smoke flavour to your dish  
BC-SMO-5019

# SPRING

Thanks to Spring, your very first gas barbecuing experience will be perfect: all the benefits of Barbecue convenience in combination with its simple features. The durable cast-iron grills retains heat better, while giving the food you prepare those typical, appetizing-looking stripes. Spring is the perfect start to a new chapter in your barbecue life.

Enamelled lid with thermometer.

Can be combined with the rotisserie set.

Keep food warm on the special rack.

Enamelled cast-iron grills.

1 fixed side table.

Side burner included.

Easy and safe electronic ignition (excl 1 AA battery).

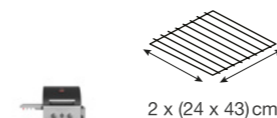

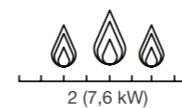

Drip pot included (dishwasher safe).

Cart with door + storage space.

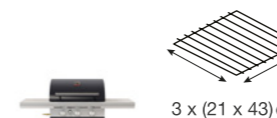

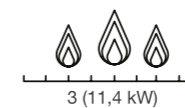

Easy to move around due to the large wheels.

# ALEXIA

barbecook

Are you looking for an ecological alternative to charcoal or gas, or just don't have a lot of space? This electric barbecue, Alexia, turns grilling into child's play, even in smaller spaces like a balcony, a city garden or indoors. Because you can remove the top part, Alexia can also easily be used on top of your yard table. This means your barbecue is within easy reach while you enjoy a cool cocktail. Is convenience important to you while grilling? Meet your new best friend: Alexia!

ELECTRIC

Non-stick coating on the grilling surface (without PFOA).

Griddle in poured aluminium with integrated resistance.

5 adjustable heat levels.

2 large wheels for easy movement.

Side table with accessory hooks.

Convenient extra plate at the bottom of the barbecue.

# SMOKERS

# Smoking?

Smoking food is hot & trendy! Smoking used to be an important method of preservation and the added flavour was only an after-thought. Today, it is the other way around; a smoker is primarily used to provide preparations with an extra delicious smokey flavour! Whether it is a piece of meat or fish, vegetables or fruit or even dairy products, anything is possible. All you need is the right smoking material and... a lot of time! After all, smoking can take several hours. Especially while cold smoking, you need some extra patience, but believe us, it is totally worth the wait. Expect unparalleled flavours from smoke-wood infused dishes!

In principle, you can prepare everything you put on the barbecue in the smoker/oven. Barbecue offers two different kinds of smokers, **the Oskar and the Otto**.

The flavour you add to dishes is determined by the kind of smoking wood you use. Barbecue offers a wide range of smoke chips, smoke chunks, smoke boards and smoke dust. Ready for your smoking adventure?

Convince your customers with our new smoking brochure full of tips & tricks and tasty recipes.

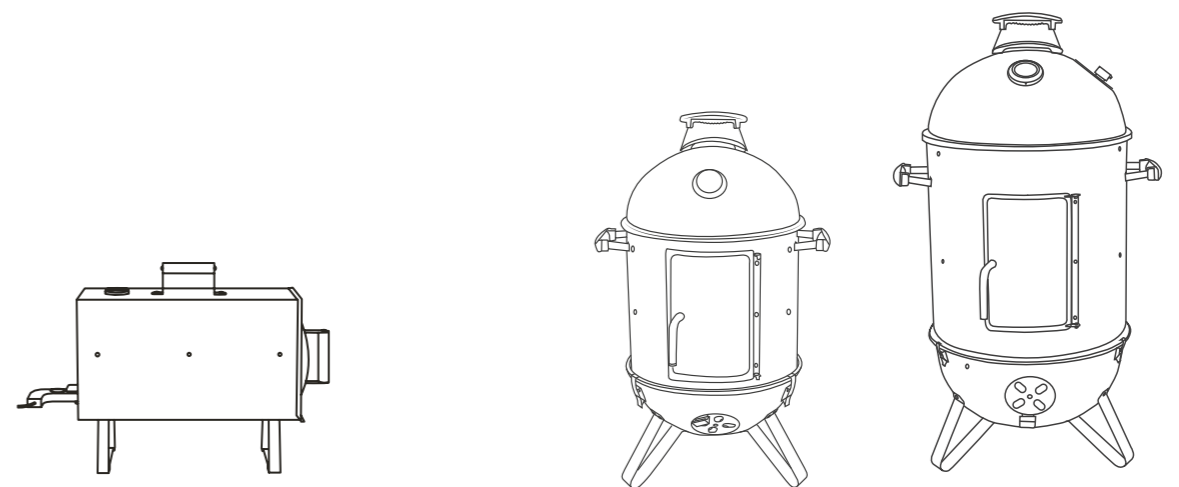

# Cold versus hot smoking

The big difference between hot and cold smoking is logically in the temperature.

For **cold smoking**, you put the spiral cold smoke generator of Barbecue in a Barbecue smoker or any barbecue with a lid. You fill the spiral with smoking dust that you let smoulder with a tea light. The smoking process takes four to ten hours. Please note: cold smoking only smokes your preparation, but does not cook it. **This takes place at a low temperature, between 20 and 25 °C.**

Important: are you planning to cold-smoke meat or fish? Then do not forget to brine them beforehand! This is crucial to avoid bacteria & moulds and to avoid food poisoning. You can brine your ingredients dry or wet.

If you have just a little less time or patience, then perhaps **warm smoking** is more for you. The higher temperature means a shorter smoking time and cooking time. With hot smoking, **it is important to maintain a constant temperature of 70°C.**

# OTTO 2.0

**NEW**

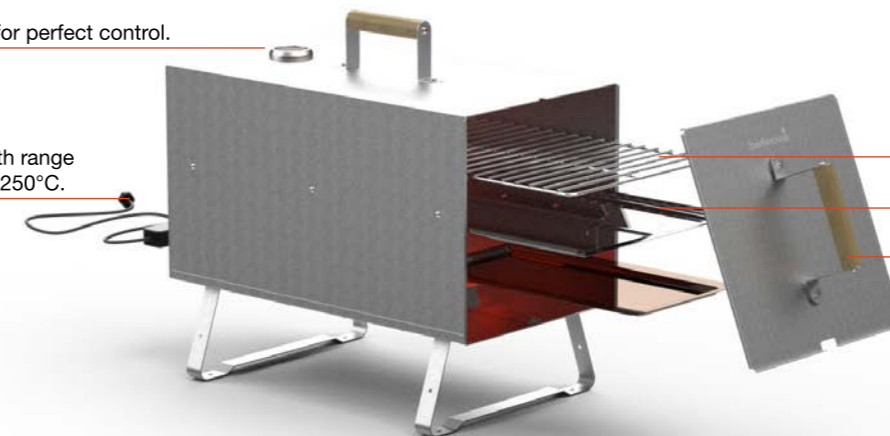

Never smoked before? Nothing is stopping you from trying it out. With the Otto electric smoker, you can do it from now on in 1, 2, 3. Place a handful of soaked smoking chips in the drawer, plug in the power cord and the fun can begin. Because of its simple use, you can easily prepare a salmon in less than 40 minutes. Soon you won't want anything else. Promise!

With our new Otto, you can smoke both cold and hot, and its compact size and handle make it easy to take with you wherever you go. So you have an electric oven at hand everywhere.

ROKEN

Thermometer for perfect control.

Thermostat with range from 100°C to 250°C.

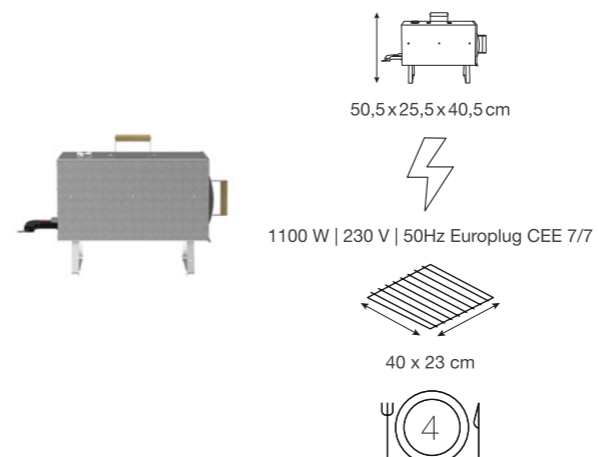

Includes food grid, drip tray and smoking chips tray.

2 different grid heights.

Wooden handles for cold grip.
