eFLOW[®] PRO ELECTRIC BARBECUE

FROM
P. 80

This electric grill doesn't just get BBQ fans all fired up, it also captures their imagination. The high-tech features are reflected in its modern design, meaning it can more than hold its own against its fiery siblings. Cast aluminium elements not only give the eFLOW[®] stability, but also deliver outstanding performance. It can be used in a variety of locations: it makes a good impression on large patios, but it is also at home on balconies in the city thanks to its foldable side tables and clever design. All you have to do now is choose between our stainless steel model and the model from the SHADOW series in matt graphite.

BBQ TECHNOLOGIES

**FASTER,
HOTTER,
SIMPLY DELICIOUS.**

THE ENDERS TURBO GAS BURNER

With the TURBO ZONE™, infrared heat and top professional quality are at your fingertips. With a maximum temperature of up to 400 °C on the grill, top-quality gas grills give the precise cooking results and barbecue flavours that your steak needs.

-  Freely adjustable and super-fast from the lowest to the highest temperature
-  Simply turn up the red dial and the TURBO ZONE™ immediately fires up to the maximum
-  Clearly recognisable by the radiant red of the stainless steel mesh on the flame cover
-  Top-quality searing at maximum temperature creates delicious grilled meat
-  The meat stays much juicier and tastier

PLUG & GRILL TURBO ZONE

THE HOTTEST ZONE ON OUR ELECTRIC BARBECUES

-  TURBO ZONE™ comes on at the touch of a button switch on and turn up to full power
-  This activates a second heating element on the right
-  Runs in parallel to the other heating element for that extra touch of power
-  Hot searing creates delicious barbecue flavour and the meat stays much juicier

**300 °C
IN THE COOKING
CHAMBER**

**400 °C
ON THE GRILL**

**800 °C
TURBO ZONE™**

TURBO CONTROL

TEMPERATURE CONTROL

HEAT RANGE®
BRENNERSYSTEM

While years of barbecue experience may have been the secret to a passable barbecue result in the past, now Enders HEAT RANGE™ technology with its professional heat control and distribution features guarantee your barbecue will always be an all-round success. The optimal coordination of all grill components – from the stainless steel burner, through the flame cover, to the grill grate – guarantees the necessary temperature control over the entire temperature range, from low cooking (approx. 80 °C) at a constant temperature to the maximum heat of 400 °C on the grill grate for searing, thereby ensuring the right finish for the perfect steak.

- 🔥 Offers constant temperatures from 80 °C up to 300 °C in the cooking chamber, while temperatures of up to 400 °C are reached directly on the grate
- 🔥 The heating time up to the maximum grill temperature is shortened significantly
- 🔥 Even heat distribution over the entire grill area up to the front zone
- 🔥 Thanks to the new flame covers, flare-ups are minimised
- 🔥 The UNIQ® PRO, KANSAS II PRO, MONROE PRO, COLORADO, BOSTON BLACK and CUBIQ® PRO series are equipped with HEAT RANGE

Barbecue with precision temperature control ranging from 80 °C up to 400 °C.

OPTIMUM CLEANING RESULTS IN NO TIME AT ALL

The patent-pending, innovative solution from Enders for uncomplicated and quick cleaning of the grill – a few simple steps is all it takes:

- The complete cooking chamber and the fat collection drawers have smooth surfaces – with no corners or edges – and can be removed without any tools
- Removable parts are made of stainless steel and are suitable for the dishwasher or are easy to clean by hand
- The irritating work that comes with trying to clean a grill in all its hard-to-reach corners is now a thing of the past
- The UNIQ® PRO, KANSAS II PRO, MONROE PRO, eFLOW® PRO, eFLAVOUR® and eCRAVE® series are equipped with SIMPLE CLEAN™

THE ROOF IS ON FIRE

The height and tilt of the CRUSTER® can be freely adjusted by means of two T-buttons.

The CRUSTER®. Conceived, designed and built to turn the concept of barbecue cooking on its head. A world first that will now sit comfortably at the very top of the food preparation chain and leave everything else in its wake. It's raining fire. And the principle behind this natural spectacle? Anything but half-baked. The CRUSTER® uses the proven technology of the back burner and reaches peak temperatures of up to 800 °C through infrared radiant heat. What makes it unique, however, is its versatility. Disguised as a back burner, the CRUSTER® can be converted into a top heat grill within seconds. It can be freely adjusted in height and tilt, thus offering unlimited possibilities when it comes to preparing various dishes. Whether it's pizza, thicker pieces of meat, casseroles or crème brûlée – the CRUSTER® turns the art of barbecue on its head.

The ceramic burner in vertical position is perfect for rotisserie cooking: whether it's gyros, doner kebabs, grilled chicken or a crispy duck – the CRUSTER® always produces an incredibly good crust.

Baking is also a walk in the park for the CRUSTER®. In the tilted position, it acts as the perfect source of top heat. If you combine the combustion power of the CRUSTER® with heat from underneath and a pizza stone, it is possible to bake pizzas in less than two minutes, even with the cooking hood open.

This position is perfect for preparing crispy steaks, pork belly and for general gratinating, roasting and caramelising. The extremely hot temperatures mean that an excellent crust can be produced in a very short space of time without drying out the food.

UNIQ® PRO

ONE NAME, UMPTEN FEATURES, EXTREME INSTEAD OF WELL-BEHAVED.

Uniqueness in series production: the brand new UNIQ® PRO line from Enders. Four models that embody the predicate “top class” like no other BBQ. And it’s the CRUSTER® that is responsible for this. The grill feature for extreme variability that only the UNIQ PRO® series can call its own. Also on board: the Dual side cooker. A sturdy cooking grate made of robust cast iron, which enables preparation in both low and high temperature ranges and, in combination with the DELICATER™ OVEN, can also be used to finish off several pieces of meat while leaving the oversized grill area – which measures just under 3,400 square centimetres – free to use. And that’s just the tip of this sizzling iceberg made of sturdy cast aluminium parts: in addition to the 800 °C TURBO ZONE™, HEAT RANGE™, SWITCH GRID™ and the dishwasher-optimised SIMPLE CLEAN™, a special slider grill grate is also included to conveniently slide food under the CRUSTER®. To ensure that nothing wobbles, tilts or sways, the UNIQ® PRO series has levelling feet in the base cabinet to compensate for unevenness in the floor without any compromises. The UNIQ® PRO line not only redefines the word uniqueness in an unparalleled design that places the greatest emphasis on the smallest components, it also delivers this excellence in series production

UNIQU[®] PRO 3 IKO KITCHEN CRUSTER[®] TOP FEATURES

Two-part warming grate made of stainless steel

11 kg gas bottle can be left in the base cabinet during operation

2 additional base cabinets with shelves

Double-walled, enamelled barbecue hood with integrated thermometer

High-quality cast aluminium side sections on the barbecue hood and cooking chamber

3 stainless steel burners for powerful direct and indirect grilling/baking

CRUSTER™

CRUSTER (6.7 KW): from back burner to top heat: continuously adjustable in height and tilt, the ceramic burner delivers infrared heat of 800 °C on the barbecue

TURBO ZONE™

800 °C TURBO ZONE (4.6 KW) with infrared mesh: reaches extra-high temperatures at turbo speed for hot searing.

HEAT RANGE™ BRENNERSYSTEM

HEAT RANGE: constant temperatures for low and high temperature cooking

SIMPLE CLEAN™

SIMPLE CLEAN: easy cleaning as individual stainless steel parts of the cooking chamber can be removed without tools

SWITCH GRID™

SWITCH GRID: solid, enamelled cast iron grate with versatile grilling options

DUAL SIDE COOKER (0.66-5.2 KW): for preparing side dishes; can also be used as a storage surface when closed

DELICATER OVEN: offers constant temperatures from 80 °C up to 180 °C in the oven, ideal for gentle, low-temperature cooking of several pieces of meat

LEVELLING FUNCTION: can be easily adjusted inside the base cabinet to compensate for unevenness on the floor surface.

SLIDER GRATE: moving the food in and out under the CRUSTER[®] is child's play thanks to the stainless steel rails with support tray and grate

KANSAS II PRO

WELCOME TO THE CHAMPIONS LEAGUE!

With the KANSAS II PRO series, you will triumph at every BBQ: the winner grills it all. The HEAT RANGE™ stainless steel burner architecture ensures optimum heat distribution right to the edges. In the cooking chamber, it impresses with a temperature range from a constant 80 °C to a roaring hot 400 °C on the grill. The cast aluminium side panels on the barbecue hood ensure enormous stability and durability. And because the best is never good enough for champions, the KANSAS II PRO series comes up trumps with additional champion features: the SWITCH GRID™ grate standard and the Enders TURBO ZONE™ offer you the perfect scope for your culinary creations. And when the fireworks are over, you can clean your barbecue easily, quickly and simply with the practical SIMPLE CLEAN™ system.

MONROE PRO

OPEN FOR ALL BARBECUE ADVENTURES

The BBQs from the MONROE PRO series are real all-rounders. Those who like to push the envelope when it comes to barbecuing are likely to really test the boundaries with all the power-packed features of this range. Everything about the gas barbecues has been thought out and optimised down to the smallest detail. Even the end caps for the barbecue hoods are made of solid cast aluminium and are thus perfectly stable and durable – not to mention the cooking chambers made of cast aluminium and indestructible stainless steel. With the TURBO ZONE™ you can effortlessly master the supreme discipline of “grilling a steak to perfection”, while the HEAT RANGE™ stainless steel burner system allows you to set any temperature you want, from low and slow to fast and hot. What’s more: the extensive range of accessories will meet all your needs. And thanks to SIMPLE CLEAN™, you can also wipe the barbecue down in no time at all. Another distinctive option: the SHADOW series with high-quality coating in a matt graphite finish. Their unique and striking appearance has already made its mark in the world of kitchens and is now set to excite the world of barbecues.

COLORADO

SOME LIKE IT HOT.

If you like things a bit hotter and more sophisticated, you'll love the COLORADO! The high-quality series has an infrared BACK BURNER ready to go, which provides that extra heat at the back – perfect for preparing rotisseries, shish kebabs and pizzas. Basically, however, the COLORADO runs at a blisteringly hot operating temperature even without back-up – 800 °C in the TURBO ZONE™ will leave you speechless. And while we're on the subject of features: HEAT RANGE™, SWITCH GRID™ and an integrated stainless steel warming grate also await you. As the generous features need to be appropriately protected, the side panels of the cooking chamber are made of high-quality, durable cast aluminium. On top of that – or more accurately, alongside it – the COLORADO 6 also boasts one sturdy, fold-down side shelf, while the COLORADO 3 and 4 even have two. And even with the 11 kg gas bottle stowed away, you'll still find enough space in the base cabinet.

COLORADO 6 IK TURBO II TOP FEATURES

Large integrated warming grate made of stainless steel

Double-walled, Enamelled lid with integrated thermometer

Fold-down side shelf for compact storage

6 stainless steel burners for powerful direct and indirect grilling/baking

Removable fat collection drawer for easy cleaning

High-quality cast aluminium side sections on the cooking chamber

DOUBLE 800 °C TURBO ZONE (4.2 KW each) with infrared mesh: reaches extra-high temperatures super fast for hot searing

HEAT RANGE: constant temperatures for low and high temperature cooking

SWITCH GRID: enamelled cast iron grate with multiple grilling options

ADJUSTABLE INFRARED BACK BURNER (3.5 KW): for juicy, crispy meat from the barbecue rotisserie

SIDE COOKER (3.15 KW): for preparing side dishes, can also be used as a storage surface when closed

11 KG GAS BOTTLE can be left in the base cabinet during operation

CUBIQ® PRO

THE BEST THINGS COME IN SMALL PACKAGES.

The CUBIQ® PRO may not be a giant, but it still has the ability to impress with all its features: the compact design and cast aluminium parts, coupled with a whole range of helpful features, make it perfect for use on the balcony. With TURBO ZONE™, HEAT RANGE™ and SWITCH GRID™, it still has everything it needs on board to rival its counterparts in every way. Despite its dimensions, it also has enough space to really deliver that WOW effect: with a tilting compartment for your barbecue utensils and an extra area for your 11 kg gas bottle. And on top of that, there's a spacious grill area with additional shelves on either side – less really is more.

CHICAGO NEXT

GRILLROUNDER

One for all. All in one. BBQs in the CHICAGO NEXT series are “grillrounders” – packed with features to keep you entertained. Both the three-burner and four-burner model have an enamelled cast-iron grate. Further down in the 3 R TURBO and 4 R TURBO is the TURBO ZONE™, with which you can achieve the highest temperatures on the barbecue at turbo speed. To lower the temperature a little, on the other hand, there is a warming grade made of stainless steel. The grillrounder is finished off by the SWITCH GRID™ system, which allows you to use a Sear Grate, pizza stone, pan, poultry roaster or Dutch oven, and two folding side shelves.

BROOKLYN NEXT

BALCONY KING

The BROOKLYN NEXT series will transform your balcony into a barbecuing paradise. With two or three stainless steel burners, it offers maximum grilling performance in a compact design – perfect for limited urban spaces. Combine it with high-quality accessories such as the SWITCH GRID™ with various inserts, the stainless steel grill pan or the rotisserie, you'll be the hottest figure in the neighbourhood. Not least because of the elegant design of the BROOKLYN NEXT series.

SAN DIEGO

TOO GREAT TO BE SMALL.

The SAN DIEGO series BBQs are real BBQ marvels. They offer spacious preparation and storage areas, but take up very little space. Perfect for small terraces, mini balconies or hot dates. Their sturdy frames come with a large shelf for plates and food and two additional shelves on the sides to store spices and sauces. A stainless steel warming grate opens and closes with the lid. And as it is made of durable stainless steel, it's easy to clean when you're done cooking up a storm. And speaking of clean: the spotless matt-black design of the stainless steel burner gas grill blends smoothly into any environment.

URBAN

Enders

CHECK IT OUT, THE BARBECUE THAT GETS IT RIGHT EVERYTIME!

With the BBQs of the URBAN series, you'll be sure to have several irons in the fire. Whether grilling, cooking or baking, you will always be able to satisfy your hunger – the URBAN, a true master in its class. In addition to high-performance grilling, the all-rounder also comes up trumps with its appealing design and intelligent technology. What can't it do? Working with gas bottles or screw-in cartridges is certainly not one of its weaknesses. In other words: you can fire up any party with the tabletop version of the URBAN! No matter whether the action's happening on the balcony or in the park at the other end of the city. The PRO version also comes with a sturdy, durable and lightweight cast aluminium hood. And with the URBAN series trolley, you can really get the barbecue going, as the mobile gas barbecue can be moved conveniently and safely on its mobile base. The practical side shelves will also give you the space you need.

PACO™

Enders®

PACO BELLO

The PACO™ pizza oven series is the ultimate way to conjure up picobello Neapolitan-style pizzas. Thanks to a continuously adjustable stainless steel burner, you can set the heat in the PACO™ precisely and keep it all in with the cast aluminium plate and a double-walled, insulated housing. You can check the temperature on the thermometer integrated into the side. And just in case, there is an ignition failsafe built in which interrupts the gas supply if the flame goes out. Another convenient feature: the folding leg design makes transport extremely easy. A further highlight of the series: the SELF ROTATING PIZZA™ function means that the pizza stone turns evenly and your Margheritas, Marinaras and other pizzas are guaranteed to be a success on the PACO™ ROTATE.

CONTINUOUSLY ADJUSTABLE STAINLESS STEEL BURNER (4 KW) for various heat settings

WITH INTEGRATED THERMOMETER ON THE SIDE

LARGE, ROTATING PIZZA STONE (Ø 30.5 CM) offers all sorts of baking options for a wide range of dishes

DOUBLE-WALLED, INSULATED HOUSING ensures optimal heat storage and lasting pizza pleasure

eFLOW[®] PRO**FULL ELECTRICAL POWER.**

Full power: the eFLOW[®] PRO 2 TURBO. Equipped to the max with innovative features, this one doesn't do things by halves, but gives you full charge straight away. From TURBO ZONE™ to SWITCH GRID™ – everything is there to make your BBQ heart beat faster (and hotter). Speaking of which: the two heating elements are infinitely adjustable with the help of LED-illuminated controls and allow you to barbecue and bake both directly and indirectly. Whatever you have in mind – with almost 2,000 cm² of grill area, you have more than enough space for it. And that's just on the top, because the base cabinet offers further storage space and an additional shelf. This amazing barbecue is simply a work of art: cast aluminium elements, such as parts of the barbecue hood and the cooking chamber, not only give the eFLOW[®] a fascinating appearance, but also ensure complete stability. And by the way, the power pack is available in both stainless steel and our matt graphite out of the SHADOW series. The only question: what more could you want?

FLAVOUR FUSION

An electric barbecue that suits your tastes. The eFLAVOUR® is the epitome of the fusion of power, technology and design. With a total output of 3 kW distributed over the two heating zones or focused only on the right side of the grill, there is sufficient electric power for a wide variety of BBQ dishes. Along with the TURBO ZONE™, SWITCH GRID™ and SIMPLE CLEAN™ are also on board to give your grilling experience even more options and convenience. Thanks to a grate surface area of almost 2,000 cm², enclosed by a double-walled lid, there is plenty of space to keep all your party guests satisfied. Moreover, the eFLAVOUR® has an exclusive design feature: instead of a door in the bottom cabinet, it has holders on the front legs that accommodate an attractively shaped serving tray. There it hides the shelves from views. Used to serve up the grilled food when it's ready, it really comes into its own and brings just the right flavour to the table – with real flair!

eCRAVE®

A REAL ALTERNATIV-E

The eCRAVE® 2 is the BBQ solution for those who want an extremely compact electric grill but are not prepared to compromise on the grilling experience. A genuine alternativ-E, which allows powerful direct and indirect grilling thanks to two separately adjustable heating elements. Combined with the enamelled grill grate, the eCRAVE® 2 leaves a unique branding on the food. But one thing that always disappears: dirt. With SIMPLE CLEAN™, cleaning even stubborn dirt is a cinch. Fold-down side shelves and plenty of storage space in the base cabinet also make the smart electric BBQ a space-saving miracle which will fit in almost anywhere.

AURORA®

Enders

SO MUCH MORE THAN MEETS THE EYE.

The AURORA® has a lot to offer. There's no smoke and mirrors involved here. While other charcoal table barbecues produce smoke like old locomotives, this BBQ sizzles away in clean, unobtrusive style. Its emission-free profile is based on the battery-powered and extremely quiet E-FAN BBQ fan technology. It not only ignites the easy-to-fill charcoal compartment underneath the enamelled preparation surface, but also fires our passion for barbecuing the original way.

UNDERCOVER PIZZERIA

The PIZZA COVER TURBO is the perfect addition to your COLORADO or MONROE PRO with back burner. With its double-walled stainless steel design and a full-size, rectangular pizza stone, you will get that real pizzeria feeling on your plate. Another highlight and also a complete innovation is the large viewing window on the top of the cover that offers a convenient option for monitoring the turbo baking process.

PIZZA COVER TURBO

Art. no. 7881

NEW

- Equipped with a viewing window
- Made of stainless steel
- With integrated thermometer
- Including large pizza stone (38 x 30 cm)
- Suitable for MONROE PRO and COLORADO with back burner

The PIZZA COVER TURBO captures the ultra high heat of the infrared back burner and conducts it cleverly over the cover to generate the perfect heat from above. The additional heat from the main burners provides the ideal heat distribution under the PIZZA COVER TURBO – the secret to a fast, perfectly baked pizza experience.

ROTISSERIES

PLANCHA

A PROFESSIONAL PLAYER

Turning heads around the world: the BARBECUE ROTISSERIE PRO made of stainless steel. Thanks to its clever universal holder made of cast aluminium, it is guaranteed to run smoothly. The rotisserie is attached to your barbecue in no time and without the use of tools. Its dual motor runs either on batteries or on electricity from the socket. The BARBECUE ROTISSERIE PRO also impresses with its easy handling and space-saving storage. A professional rotisserie solution and a real all-rounder to boot.

ROTISSERIE PRO

Art. no. 7908

- Universal barbecue rotisserie made of stainless steel with cast aluminium holders
- Quick and easy attachment of the cast aluminium adapters without the need for tools
- Quiet electric motor can be powered by batteries or mains electricity
- Made of durable materials for a load-bearing capacity of approx. 10 kg

AN INSERT FOR EVERY USE

DUTCH OVEN

ART. NO. 7795

- For preparing braised dishes, stews, ribs or even for baking bread
- Special lid structure for even condensation distribution and succulent food
- Insertable stainless steel rib rack
- Additional opening on the lid enables temperature measurement with the lid closed
- Capacity: 5.5 L / weight: 8 kg

SEAR GRATE

ART. NO. 7791

- For quick and intense searing
- Creates unique branding on the grilled food
- Solid, enamelled cast iron

PIZZA STONE

ART. NO. 7790

- For easy preparation of crispy pizzas and sweet pastries
- Ceramic pizza stone (Ø 31.5 cm)
- Enamelled cast iron holder

PAN

ART. NO. 7792

- For sautéing potatoes or roasting vegetables
- Extra-high rim (4 cm) for easy turning of the grilled food in the pan
- Solid, enamelled cast iron

POULTRY ROASTER

ART. NO. 7793

- For even cooking of poultry and vegetables
- Stainless steel body with robust enamelled cast iron handles
- Poultry holder can be screwed off and on for easy cleaning

Enders

WOK 'N' BROIL

With the SWITCH GRID™ WOK, you'll rock every barbecue evening from now on. When used correctly, the unique wok aroma is released as you create dishes that will blow your mind. The solid enamelled cast iron of the SWITCH GRID WOK always ensures optimum heat distribution. The extremely practical base allows you to use it directly on the grill or other suitable heat sources.

WOK

ART. NO. 7797

- For the unique wok taste sensation on your Enders gas barbecue
- Made of solid, enamelled cast iron for effective heat distribution
- The practical base enables use directly on the grill grate and other suitable heat sources
- Two side handles for easy and convenient handling
- Suitable for all Switch Grid grates from Enders (except eFLOW PRO and eFLAVOUR series)
- W 38 x L 35 x H 10 cm / Weight: 4.5 kg

ADAPTABLE? SWITCH, PLEASE!

Turn your barbecue into a true all-purpose weapon – meatball-proof. Whether it's hearty braised dishes with the **Dutch Oven**, intense searing with the **Sear Grate**, hot baking sessions on the **Pizza Stone**, crispy meat fun thanks to the **Poultry Roaster**, fast and healthy cooking from the **Wok** or delicious side dishes in the **Pan** – thanks to the **SWITCH GRID™** you are well-prepared for any and all eventualities. Quick and easy to replace, you can equip the enamelled cast iron grill and removable round element to suit your needs. A full range of barbecue options.

GRILL MAGS®

MAGNETIC HOLDERS FOR BARBECUE ACCESSORIES

NEW

ALWAYS NEAT AND TIDY

When things get pretty hot at the barbecue, one thing counts above all: keeping an overview of everything that's going on. GRILL MAGS® provide the ideal solution for this. These magnetic holders for cutlery, grill grate, spices, kitchen roll and bottles not only keep things neat and tidy but also impress with their intelligent details. The bottle holder comes with a removable bottle opener and fits seamlessly into the bracket, giving not only stability but also a tidy appearance. GRILL MAGS® literally keep their promise of a barbecue area that is always neat and tidy.

BOTTLE HOLDER

ART. NO. 7714

- For bottles up to Ø 8.5 cm
- Removable bottle opener
- Strong magnets ensure a secure hold
- Dimensions: B 10.5 x D 10 x H 10.5 cm

SPICE RACK

ART. NO. 7718

- Strong magnets ensure a secure hold
- Removable container
- External dimensions: W 26.5 x D 10 x H 5 cm
- Internal dimensions: W 21 x D 8.2 x H 4.8 cm

UNIVERSAL CONTAINER

ART. NO. 7715

- Capacity: 8 litres
- Strong magnets ensure a secure hold
- Removable container
- Dimensions: W 34 x D 14 x H 26 cm

KITCHEN ROLL HOLDER

ART. NO. 7711

- Strong magnets ensure a secure hold
- Consisting of two elements
- Dimensions: 2 x W 11 x D 6 x H 8 cm

GRATE HOLDER

ART. NO. 7716

- Strong magnets ensure a secure hold (up to 7 kg)
- Grate holder for all Enders grill grates
- Dimensions: 2 x W 3 x D 8.5 x H 30 cm

GRILL CUTLERY HOLDER

ART. NO. 7717

- Strong magnets ensure a secure hold
- Dimensions: W 30 x D 7.5 x H 3 cm

CHOPPING BOARD

ART. NO. 7824

- No slipping due to a strong magnet
- Removable drip tray (750 ml)
- Deep drainage channels for clean drainage into the collection tray
- Dishwasher safe
- Material: food-grade polypropylene (PP)
- Dimensions: W 30 x D 6.5 x H 46.5 cm

MODULAR TROLLEY

ROLL YOUR STORAGE SPACE TO WHERE IT'S NEEDED.

Our modular trolley makes storage dreams come true. The rolling space-saving miracle provides you with additional storage options. With two strong magnets, you can attach the versatile mobile container to your BBQ. Whether on the left or right, it's entirely up to you. And the four flexible castors mean that you can move it around in the most convenient way possible.. And by the way: maximum convenience also awaits you when it comes to tidiness. Thanks to the unit's subdivision with an additional shelf, you will be able to find things more quickly.

MODULAR TROLLEY

ART. NO. 88186

- Additional storage space for the outdoor kitchen
- Two strong magnets dock the trolley in place by the grill
- Can be positioned on the left or right of the grill
- Better organisation thanks to the additional shelf
- Four flexible swivel castors

W 34 x D 47 x H 76 cm

DURABLE MATERIALS
water-repellent, fireproof, UV protection

PREMIUM WEATHER PROTECTION COVERS

Today it may rain, hail or snow ... but who cares? It's not the end of the story for your barbecue. Our PREMIUM weather protection covers shield your barbecue buddy from all the elements. Heavy rain, sunlight, blizzards and dirt are no longer a worry. The lightweight fabric made of UV-resistant special fibre is extremely tear-resistant and colourfast. And thanks to the breathable PU coating, it is also really smart: waterproof on the outside and permeable to water vapour on the inside, thereby completely excluding the formation of condensation. Because of these solid features and the ease of handling, you will always be able to cover your barbecue with the PREMIUM weather protection cover quickly!

ECO-BURNER TECHNOLOGY

Finally, you're sitting together with your friends again. Of course, you are out in the fresh air on the patio or the balcony and, of course, in the best of moods. Who wants to let the weather throw a spanner in the works and sacrifice a beautiful evening to a low-pressure zone or a cold front? Time for the ECO patio heaters from Enders. Why Enders? Easy! Because patio heaters from Enders get more radiant heat out of every kilowatt with intelligent technology. And because Enders delivers the heat where you want it.

EFFICIENCY IN EVERY WAY

But Enders would not be the global pioneer in the development of efficient patio heaters if we left it at that: for example, we have succeeded in reducing gas consumption by up to 83% compared to a conventional 12 kW burner while generating the same amount of heat.

That means for you: 83% lower emissions, 83% lower costs and 83% more enjoyment of the outdoors.

But see for yourself what's in it for you with our innovative technology solutions!

83% SAVINGS
in CO₂ emissions and costs*

50% SAVINGS
in CO₂ emissions and costs*

30% SAVINGS
in CO₂ emissions and costs*

*compared to conventional 12 kW standard burners

The Enders NOVA® LED fireplaces also feature ECO GREEN technology in addition to a stunning design. The NOVA® LED M with a burning time of 111 hours (8 kg gas bottle) and the NOVA® LED L with 152 hours (11 kg gas bottle) also prove to be real efficiency stars.

NOVA® LED

MRS. NOVA, NOVA.

Ambience: romantic, flame: fantastic, effect: dramatic – with NOVA® we have captured fire in an entirely new way and created something wonderful for your patio. The slim housings surrounding the fireplaces come in black, grey and taupe, together with colour-coordinated glass cylinders and reflectors. The dancing fire in the centre is accompanied by a round, red LED light, while an indirect light shimmers around the base of the column in a high-quality finish. With its modern and aesthetic design, NOVA® is truly a stunner to behold. And so compact that it can be set up anywhere.

WEATHER PROTECTION COVERS

Enders

PREMIUM weather protection covers from Enders provide lasting protection against all the outdoor elements such as rain, sun, snow and dirt. The fabric – made of a UV-resistant special fibre – is permanently tear-resistant and colourfast. The breathable PU coating is not only waterproof but also permeable for water vapour to avoid the formation of condensation.

Enders PREMIUM weather protection covers are lightweight, odourless and impress with their easy handling and well-thought-out details, such as wind-proof fitting with magnets integrated into the hem.

ELECTRIC PATIO HEATERS

ELECTRIC HEATERS.

Loom, Moow, Oron and Oxeo. Fantastic names that truly redefine the status quo under a starlit sky: electric patio heaters from Enders. A perfectly coordinated family of models in terms of their design and range of functions, consisting of freestanding, suspended and wall-mounted heaters that complement each other ideally, but also deliver outstanding performance independently of one another. Framed in a modern design, these electric patio heaters stand out above all because of their versatility. Intensity, tilt, height or alignment: the four heaters can be configured individually and thus always guarantee the best possible heat radiation. Thanks to Plug & Heat and wind-resistant infrared technology, this is available almost instantly. Simply heavenly.

EXPLORER NEXT

EVERYWHERE. WHEREVER YOU BARBECUE.

To make sure you don't end up missing your BBQ too badly or wind up feeling hungry for a succulent barbecue feast when you're on the road: the EXPLORER NEXT PRO is at your side. This barbecue is a spirited adventurer that scores top marks with its compact design and heaps of useful features: extremely sturdy leg construction, a stainless steel grate, cast aluminium barbecue hood and a useful storage surface. With the EXPLORER NEXT PRO, you're guaranteed more fun when camping or on your trip to the lake. And in addition to its mobility, this "Bear Grylls" of the BBQ world also knows how to deliver a top performance in terms of flexibility: The grill grates that sit above the practical gas cookers can be removed individually – making sure that sausages and omelettes don't get in each other's way. Good to know: all EXPLORER NEXT models are also available as a caravan version. They can be connected directly to your caravan or motorhome – leaving all the more time for you to explore.

VAMO™

VAMO A LA CAMP SITE

How versatile! With the VAMO™, you can enjoy your favourite oven recipes under the open skies. As an extremely practical attachment for the barbecue, stove or hotplate, you can use it flexibly while camping and enjoy heat from above and below far away from civilisation. The easy-clean ceramic coating prevents food from sticking, while the integrated thermometer always shows the precise temperature. Whether it's crisp bread, fresh rolls, light cakes or tasty casseroles – the VAMO™ is perfect for any dish that requires cooking in an oven.

PRODUCT OVERVIEW

EXPLORER NEXT

MAVERIQ®

SAFE HEAT

With the MAVERIQ® cartridge stove, you can enjoy extreme performance and high safety in a mobile device – safe heat. Thanks to a continuously adjustable burner with pan grate and a high-quality stainless steel surface, you don't have to accept any compromises in terms of performance when you are off the beaten track. Clever safety features such as piezo ignition, overpressure shut-off and overheating protection also provide you with a worry-free cooking experience. Packed safely in an impact-resistant plastic case, the MAVERIQ® is ready and waiting for your next outdoor adventure.

CANBERRA

OUTBACK CUISINE

The CANBERRA camping stove impresses with its powerful, adjustable burners which will allow you to enjoy an impressive culinary experience even in the deepest outback. The very sturdy, chrome-plated pan grate ensures safe cooking with very easy handling. The CANBERRA is not only compact and therefore easy to transport, but is also easy to clean thanks to its smooth surfaces. Plastic corners on the cover protect the powder-coated steel housing, while rubber feet make it extremely stable.

DALGETY BLACK

Outdoor fans get ready – and look forward to the fun to come! The popular DALGETY camping stove is now also available in a stylish, modern black matt finish. As far as the inner workings are concerned, the DALGETY BLACK continues to impress with a choice of two or three continuously adjustable power burners and a large grate diameter. High-quality and robust materials, a removable cover and smooth surfaces allow for quick cleaning – even in the middle of nowhere. The DALGETY BLACK comes with an 80 cm connection hose, practical rubber feet for real stability and an optional ignition safety device. As an adventurer, what more could you wish for?

BRISBANE

The premium stoves of the BRISBANE series help deliver great food on the go. Available with two or three burners depending on preference, they impress with the highest quality workmanship, designed for robustness, sophisticated functions and aesthetic design. Both the burner cover and the housing are made of high-quality, extremely durable stainless steel. Height-adjustable feet, an integrated ignition safety device and a removable, large-format pan grate ensure maximum convenience, even away from civilisation – nothing short of outstanding.

HOSE AND CARTRIDGE REGULATOR KITS FOR CAMPING STOVES

ART.-NR. 1236* / 1237**

- For operating threaded cartridge
- Output pressure: 30 mbar
- Hose length: 80 cm
- Both hose sides ends open with clamp

* 1236: hose Ø 10 mm (PL, BG, EE, LT, LV, HU, TR, FI, NO, PT, DE, UA)

** 1237: hose Ø 8 mm (IS, NL, BE, LU, CZ, SL, SI, HR, RO, IT, GR, GB, SE, IE, CY, FR)

CAMPING ACCESSORIES

SOLAR SHOWER

ART. NO. 7497

- Volume: 20 L
- Adjustable flow
- Sturdy fabric for long service life
- For the camping site or garden
- The solar radiation heats the water
- 2 m line to attach in place
- Weight: 310 g

CULINA

ART. NO. 6832

- Pan set made of stainless steel
- Pan 1: Ø 18 cm, H 9 cm (approx. 1.5 L) & lid
- Pan 2: Ø 16 cm, H 8 cm (approx. 1 L) & lid
- Frying pan: Ø 17.5 cm, H 4 cm
- Including nylon carrying bag
- Weight: 1 kg

Practical bag for transport and storage

Stackable to save space

SHINE LED

ART. NO. 6487

- Housing made of robust and impact-resistant plastic for long-lasting use
- 24 white LEDs ensure a high degree of illumination
- Folding bracket can be used as a carry handle
- Including hook for easy hanging
- Battery-powered (4 x C batteries not included)
- Dimensions: 20 x Ø 9.5 cm
- Weight: 350 g

7453 | 20 litres

7452 | 10 litres

WATER CANISTER

ART. NO. 7452/7453

- Water container with drain valve and outlet pipe
- Integrated ventilation in drain valve and outlet pipe
- Outlet pipe is stored inside the container to protect against contamination and loss
- Food-safe
- Easy to carry with sturdy handle
- Sturdy and impact-resistant
- Cap has fastening strap to prevent loss
- Large base for high stability
- Stackable to save space
- 10 L container: W 35.5 x D 16.5 x H 36.5 cm Weight: 610 g
- 20 L container: W 39 x D 19 x H 50.5 cm Weight: 1 kg

FOLDABLE WATER CANISTER

ART. NO. 7599

- Volume: 15 L
- With drain cock
- Sturdy carrying handle
- Food safe
- Weight: 270 g

MOBILE TOILETS

THAT "AT HOME" FEELING WHEN TRAVELLING

Most people who like to travel share the unspoken wish that they would prefer their home toilet to any other. Camping toilets from Enders are built in such a way that you can now take that feeling of comfort with you wherever you go. A comfortable seat height corresponds to the height of the fixed toilets that you're familiar with at home. The smooth surface is just as easy to keep clean as it is to handle, and all without tools: the toilet lid and seat are easy to remove and the extra-large flushing water tank can be refilled quickly. It's going to be a good trip!

DELUXE

ART. NO. 4950

- Seat height: 35 cm
- Piston pump flushing
- Quick separation of flush and wastewater tank
- Ergonomic carrying handle for the wastewater tank
- Transport roller for easy transport when the tank is full
- Fill level indicator for the wastewater tank
- Swivelling pipe for hassle-free emptying of the wastewater tank
- With ventilation button
- Very smooth and hygienic surface

SUPREME

ART. NO. 4999

- Comfortable seat height of 44 cm – just like at home
- Integrated toilet paper holder
- Toilet lid and seat can be removed without tools for easy cleaning and quick, uncomplicated filling of the flush water tank
- Piston pump flushing
- Quick separation of flush and wastewater tank
- 1 ergonomic carrying handle each for flush and wastewater tank
- Transport roller for easy transport when the tank is full
- Fill level indicator for the wastewater tank
- Swivelling pipe for hassle-free emptying of the wastewater tank
- With ventilation button
- Very smooth and hygienic surface

Removal of cover and seat without tools

Level indicator

Comfortable toilet seat

Integrated holder for toilet paper

Swivel discharge pipe

Ventilation button

COMFORT

ART. NO. 49429

- Seat height: 32 cm
- Piston pump flushing
- Quick separation of flush and wastewater tank
- Ergonomic carrying handle for the wastewater tank
- Level indicator on the transparent screw cap of the wastewater tank
- Very smooth and hygienic surface

QUINTISSENTIAL WC HYGIENE.

The microbiological sanitation additives **ENSAN BLUE+** and **ENSAN RINSE+** effectively clean your mobile toilet system ecologically and sustainably. Our environmentally friendly and high-performance alternatives to conventional additives make use of natural recycling and are well-thought-out: microorganisms reliably rid your camping toilet of unpleasant odours, keep it clean and efficiently decompose faeces and toilet paper. In addition, our additives are biodegradable, non-hazardous and compatible with sewage treatment plants – that's why **ENSAN BLUE+** has been awarded the **Blauer Engel Environmental Label**. What's more, **ENSAN BLUE+** is twice as efficient as conventional additives for wastewater tanks.

PRODUCT OVERVIEW

MICROBIOLOGICAL SANITARY ADDITIVES

ENSAN BLUE+ 1L/2,5L ART. NO. 497698/497798
FOR THE WASTE WATER TANK

- Powerful with microorganisms
- Awarded the BLAUER ENGEL Environmental Label
- Easily bio-degradable
- Non-hazardous and compatible with sewage treatment plants
- Facilitates the breakdown of organic waste and the decomposition of toilet paper
- Keeps the wastewater tank hygienically clean
- Gives the air a pleasant aroma
- For approx. 200 L of wastewater per 1 L sanitary liquid
- For approx. 500 L of waste per 2.5 L sanitary liquid

ENSAN RINSE+ 1L ART. NO. 497898
FOR THE RINSING WATER TANK

- Powerful with microorganisms
- Easily bio-degradable
- Non-hazardous and compatible with sewage treatment plants
- Cleans the bowl and slide valve when flushing
- Removes plaque, prevents limescale build-up and keeps the toilet hygienically clean
- Flushing water stays clean and fresh at temperatures up to 40 °C
- Gives the air a pleasant aroma
- For approx. 200 L of flushing water per 1 L sanitary liquid

ENSAN BLUE+ is twice as efficient as conventional additives for wastewater tanks.

www.blauer-engel.de/uz84a

PRODUCT OVERVIEW

CONVENTIONAL SANITARY ADDITIVES

ENSAN BLUE 2,5L/5L ART. NO. 501798/501898
FOR THE WASTEWATER TANK

- Facilitates the breakdown of organic waste and the decomposition of toilet paper
- Prevents unpleasant odours and reduces the formation of gas
- For approx. 250 L waste water per 2.5 L sanitary liquid
- For approx. 500 L of waste water per 5 L sanitary liquid

ENSAN GREEN 1L ART. NO. 498098
FOR THE WASTEWATER TANK

- Facilitates the breakdown of organic waste and the decomposition of toilet paper
- Prevents the formation of unpleasant odours
- For approx. 130 L of waste water per 1 L sanitary liquid

ENSAN RINSE 1L ART. NO. 498498
FOR THE FLUSH WATER TANK

- Cleans the bowl and slide valve with every flush
- Removes water scale, prevents limescale build-up and ensures the smooth functioning of the stop valve
- Protects all rubber seals and keeps the toilet hygienically clean
- Pleasant and long-lasting citrus scent
- For approx. 150 L of flushing water per 1 L sanitary liquid

SANITARY SET 1L EACH ART. NO. 49808098
FOR THE FLUSHING WATER AND WASTEWATER TANK

- Sanitary concentrate set for the flushing water and wastewater tanks
- Set consists of: Ensan Green 1 L for the wastewater tank Ensan Rinse 1 L for the flushing water tank

ENSAN TABS BLUE ART. NO. 5013
FOR THE WASTEWATER TANK

- Tablet form for easy, safe and accurate dosing
- Facilitates the breakdown of organic waste and the decomposition of toilet paper
- Prevents unpleasant odours and reduces the formation of gas
- Essential oils provide a pleasant fragrance (spruce)
- 15 tablets per tin

ENSAN WHITE ART. NO. 5005
SOFT TOILET PAPER

- Special easily soluble toilet paper
- 4 rolls per bag, 2-ply
- Extremely soft and strong
- 250 sheets per roll
- 9 x 11.5 cm

VANCOUVER

When it comes to transport and storage, the VANCOUVER industrial pro-box is simply unbeatable. Other manufacturers can pack up and go home – and if they did, we'd be there ready to help them ... Our universal box is characterised by robust workmanship, durability and maximum stacking and carrying capacity. Indestructible stacking corners made of die-cast metal and edge, floor and ceiling profiles made of solid profiles ensure that the VANCOUVER has maximum stability at all times. The double-beaded base is also extremely durable and sturdy. With the accompanying hanging tag, the box can easily be labelled and the contents can be identified from the outside.

PRODUCT OVERVIEW

VANCOUVER	S	M	L
Article number	1352	1351	1350
Volume L	123	170	236
Weight kg	6.5	8.1	9.2
Material thickness mm	1	1	1
External dimensions cm	W 66 x D 44.5 x H 51	W 79 x D 58.5 x H 44	W 79 x D 58.5 x H 60
Internal dimensions cm	W 63 x D 41 x H 48	W 76 x D 55 x H 41	W 76 x D 55 x H 57

TOP FEATURES

Stainless steel hinges and plastic-sheathed spring drop handles for hassle-free transport

Circumferential rubber profile Ensures dust and splash water protection

Sturdy industrial pro-box made of 1 mm thick aluminium

FEATURES

ROBUST STACKING CORNERS made of cast aluminium

STAINLESS STEEL HANGING TAG to identify the contents of the box

2 BEADS for extra stability and strength

STURDY LEVER CLAMP FASTENERS made of stainless steel

HIGH STABILITY thanks to full profiles on lid, edge and base

2 STURDY LID STRAPS hold the lid in position

TORONTO

The aluminium boxes in the TORONTO series have a lot to offer in terms of size and application options, both in and out of the box – above all, their quality. Thanks to dimensional stability and solid workmanship, there is hardly anything for which a TORONTO container is not the perfect transport box. Are you sure it's up to it? Yup, it is! With the attached hanging tag, it can also be labelled in an instant and the contents identified from the outside. Practical, unbreakable plastic handles ensure hassle-free transport – hands on! The boxes are easy to stack and are sure to win you over with their chic, elegant design. Transport castors and locks round off the features.

TOP FEATURES

Extremely stable frame construction for particularly high dimensional stability

Foam rubber seal in the lid protects against dust and splash water

2 lateral safety grips for ergonomic handling and good resilience

Self-retaining lid

Front handle made of plastic, additional use as carry handle

Sealable lever clamp locks

LEGEND

ABBREVIATION EXPLANATION

I	with infrared back burner
IK	with infrared back burner and side cooker
K	with side cooker
KR	with side cooker und SWITCH GRID™ grate
R	with SWITCH GRID™ grate

S	with viewing window
SIK	with viewing window, infrared back burner and side cooker
O	with Delicater™ oven
Z	with ignition safety device

	CRUSTER® From back burner to top heat: continuously adjustable in height and tilt, the ceramic burner delivers infrared heat of 800 °C on the barbecue
 	TURBO ZONE™ Your grilling zone for intense searing at maximum temperature on gas and electric grills.
	HEAT RANGE™ Precise grilling with temperature control from 80 °C up to 400 °C.
	SWITCH GRID™ With the clever grill grate system, you simply switch to the right insert for each dish.
	SIMPLE CLEAN™ Simply remove the individual parts of the cooking chamber of your barbecue without tools and conveniently put them in the dishwasher.
	ECO ULTRA burner technology 83% saving of CO ₂ emissions and costs compared to a standard 12 kW burner.
	ECO GREEN burner technology 50% saving of CO ₂ emissions and costs compared to a 12 kW standard burner.
	ECO PLUS burner technology 30% saving of CO ₂ emissions and costs compared to a 12 kW standard burner.
	ENDUR reflection system Heat is radiated across a large area and with maximum efficiency.
	The German Association of the Gas and Water Industry (DVGW) is an independent and neutral industry certifier rooted in the European internal market. The safety, hygiene and environmental compatibility of a product is at the centre of every test. Tests are based on the DVGW rules and regulations, on nationally and internationally recognised guidelines, standards and certification programmes.
	GS marking The GS seal certifies that a ready-to-use product meets the requirements of the Product Safety Act (ProdSG).
	The CE mark confirms that the product to which it is affixed meets the requirements of all EC directives applicable to it.

We reserve the right to make minor deviations from the text and illustrations in this catalogue for reasons of technical progress. The product weights listed here are approximate. On publication of this catalogue, all older catalogue versions become invalid.
